

CITEUROPASS

Training & Student Projects

1ST CALL

DISCOVER EUROPE THROUGH INNOVATIVE COLLABORATION

CitEuroPass training and student projects brings you opportunity to gain skills for work in international teams and in online environment. You will work in a team and collaborate with students from France, Bulgaria, Romania, and Slovakia. The objective is to develop your skills of European citizenship through the method of "learning by doing". By organizing 3 training courses in the values of citizenship (living together, respecting others, acting ethically, respecting the environment), Citeuropass offers project management situations to international teams in order to put acquired knowledge into practice.

WHAT CAN YOU EXPECT?

-  Lectures & interactive workshops with experts in the field of EU citizenship, EU entrepreneurship and EU frugal innovations.
-  Serious games within training.
-  Elaborating frugal innovation projects, testing and prototyping of suggested solutions, experiencing BioLab.
-  Final meeting at Grenoble, France.
-  3 ECTS and Open Badges after successful completion.
